

EVERY DOG MATTERS

UNMATCHED QUALITY SINCE 2016

RAISING THE STANDARD
IN K9 PROTECTION

A WORKING DOG IS AN INVESTMENT WORTH PROTECTING.

A trained working dog is more than a tool—they are a **partner, a protector, and a life-saver**. The investment in their training is significant, yet many are sent into dangerous situations without the protection they deserve.

Our focus is engineering K9 products that maximize wearability and function. By making K9 vests more practical and accessible, together we can help save lives.

A K9's job is dangerous. Their protection should never be optional. That is why we design K9 armor that provides lightweight, high-performance protection without compromising mobility or comfort.

FEATURED GEAR:

K9 ENFORCER VEST

The K9 Enforcer Vest is built for **frontline operations** where protection cannot be compromised.

Ballistic and flotation assist options available

Engineered for high-risk deployments

Designed for maximum protection with full range of motion

LOF K9 GEAR TESTED, TRUSTED, PROVEN.

We do not cut corners. We do not compromise. Every piece of LOF gear is designed, built, and tested in-house and in the field, ensuring that every product meets the highest standards of durability and performance.

- Used by police, military, and SAR teams worldwide
- Handcrafted and **field-tested** in real-world conditions
- Backed by a **lifetime warranty**

FEATURED GEAR:

K9 STREETFIGHTER VEST

Designed for speed and agility, the K9 Streetfighter Vest is optimized for all day patrol operations.

Ultra-lightweight design for maximum mobility

Designed for all-day wear without impeding work drive

Modular customization for mission-specific needs

FEATURED GEAR:

K9 HUNTER VEST

Optimized for **Search & Rescue (SAR)** operations, the K9 Hunter Vest is built for working dogs in demanding environments.

- Lightweight construction with **flotation assist** to reduce fatigue and **armour options** to keep the K-9s safe in the harshest disaster zones
- **High-visibility options** for low-light and disaster response
- **Reinforced extraction handles** for challenging terrain and rapid deployments

Proudly Canadian. All of our K9 gear is manufactured at our Canadian facility by our team of dedicated professionals.

GIVING BACK – RAISING THE STANDARD

K9 PROTECTION ISN'T JUST A BUSINESS IT'S A MISSION.

We do more than build gear. We stand behind the K9 community through donations, partnerships, and advocacy—because every K9 deserves the best.

OUR COMMITMENT

At Line of Fire Defence Systems, we focus on K9 handlers by delivering gear that withstands high-pressure situations. Through careful research, material selection, and rigorous testing, we ensure our solutions enhance the safety and effectiveness of K9 units.

- **Non-Profit Support** – Partnering with organizations that protect working dogs
- **Over 400 Vests Donated** – Directly supporting K9 teams in need through nonprofit partnerships
- **Raising the Standard** – Elevating K9 safety across police, military, and SAR

FEATURED GEAR:

SENTRY COLLAR

Built for durability in the toughest conditions, the Sentry Collar is designed for mission-ready performance. Sentry Pro version is available with integrated COBRA® V-Ring buckle.

Heavy-duty construction

AustriAlpin™ COBRA® buckle

Tested for high-stress environments

FEATURED GEAR:

LOF LEASHES & CUSTOM PATCHES

Our leashes and custom patches are built for working K9s, ensuring durability, reliability, and clear identification in the field. Reinforced materials for extreme conditions. Custom patches available for identification and unit branding.
